Performance Trend Analysis

Vocabulary Surge (+39 Point Overall Growth)

Vocabulary showed a remarkable late-period breakthrough. After remaining in the 51%–64% range for most of 2025 and early 2026, scores spiked dramatically to reach a high of 90% in May 2026.

Writing Substantial Acceleration (+60 Point Overall Growth)

Writing demonstrated the most significant long-term growth trajectory, surging from a initial low baseline of 25% in November 2024 up to a peak of 85% in April 2026.

English Grade Recovery (+15 Point Growth)

Overall English Grade climbed steadily from an initial score of **61%** in April 2025 to a peak of **80%** in August 2025, settling at a solid **76%** in May 2026.

Academic Recommendations & Action Items

- **Consolidate Vocabulary Mastery:** Capitalize on the recent jump to 90% by integrating weekly spaced-repetition retention exercises.
- **Maintain Writing Trajectory:** Continue supporting structural composition and rhetoric strategies to keep writing scores firmly above 80%.
- **Stabilize Overall English Performance:** Target consistent foundational review to push the core English Grade back above the 80% mark.
